

PROJECT SNAPSHOT

Project Name:	Night to Shine Sponsored by the Tim Tebow Foundation™
Location:	Milford, CT
Project Date:	April 2016
Lighting Package:	Altman Rentals, Inc.
City Theatrical Solution:	QolorPoint™ Wireless LED Uplighters

CHALLENGES

In support of the local special needs community, Faith Church applied for sponsorship for a Night to Shine event through the [Tim Tebow Foundation](#). In order to host the event, the church needed to meet requirements requested by the foundation.

The foundation required a restriction on lights to avoid over-stimulation by excessive flashing and sound. They prohibited the use of strobing and flashing to be sensitive to the special needs of those attending.

Since the location of the prom was set to be a school gymnasium, they did not have an abundant power supply for the event. This made battery-operated LED light sources an ideal choice. There was also a limited frame for set up at the school, thus requiring a lighting solution that could be quickly and easily placed upon arrival.

Night to Shine is an unforgettable prom night benefit for people

with special needs ages 14 and older. With the help of 175,000 volunteers, more than 540 churches join together on one night every February to host the event for a total of 90,000 honored guests around the world.

SOLUTION

With the support and knowhow of the team at Altman Rentals, Inc., Faith Church used [QolorPoint™ Wireless LED Uplighters](#) to create a colorful, sophisticated ambiance that was safe for their guests and simple to install. The team pre-programmed the color of the uplighters before arriving to the venue and used the pivoting head feature to backlight sheer, white fabric around the perimeter of the gymnasium in minutes.

“No challenges. Easy to charge, easy to program, easy to set up and easy to strike. We will use QolorPoint Uplighters on future projects!”

- Kris Hodge, Agent, Altman Rentals, Inc.
