

1253 Adapter, 6 1/4" to 6 5/8" Source Four to Scrim (for film projects)

# NEW Adapter for Film Projects (P/N 1253)

Designed for Film, this Adapter Connects Source Four Fixtures to One or More Scrim

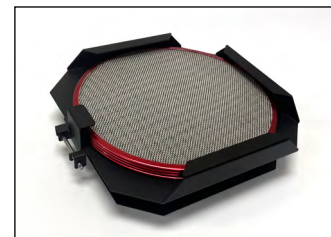

**City Theatrical designed the Adapter, 6 1/4" to 6 5/8" Source Four to Scrim (P/N 1253) for the needs of film lighting projects.**

You can use it to connect one or multiple scrim to an ETC Source Four lighting fixture with an EDLT or Standard lens, in order to achieve the lighting looks desired for your film & video project.

City Theatrical Adapters can extend the use of your stock, and save you money. Find out more about this and other Adapter solutions on our website.

Adapter holding one scrim

Adapter holding four scrim

The 1253 Adapter fits Source 4 fixtures with an EDLT or Standard lens to attach one or more scrim over the light output.
