For Immediate Release

## City Theatrical Introduces QolorFLEX® Connect 10

**City Theatrical** has expanded its QolorFLEX brand of professional flexible linear LED lighting to include [QolorFLEX Connect 10](#), a practical and time saving solution for managing the multiple wire runs and numerous connections needed for large scale installations of LED Tape in entertainment and architectural projects.

Developed to complement [QolorFLEX 5-in-1 LED Tape](#), **QolorFLEX Connect 10** is a “plug-in box” that can connect up to nine runs of five, four, three, dual, or single color LED tape to a low voltage low dimmer. Each **QolorFLEX Connect 10** uses 10 six position detachable Phoenix terminal block connectors to achieve a quick and well-ordered installation.

**QolorFLEX Connect 10** is a central component in a full system of QolorFLEX LED Tape and Dimmers. It connects [QolorFLEX LED Tape](#), including 5-in-1 and Quad Chip LED tapes, and [QolorFLEX LED Tape Accessories](#), including 18-gauge five and six conductor ribbon cables and five and six position Phoenix terminal block connectors, to a wide variety of QolorFLEX Dimmers, like the [QolorFLEX 5x8A Dimmer](#), and [LED Power Supplies](#).

**QolorFLEX Connect 10** is constructed with a Nema 4 IP 20 steel enclosure, and offers a maximum current per device of 40A and maximum load per terminal of 20A. This technology was developed to overcome the challenges faced by lighting professionals doing large LED tape installations. **QolorFLEX Connect 10** makes the setup process faster, and is useful for sets that require assembly multiple times, such as touring productions.

To get started with **QolorFLEX Connect 10**, **QolorFLEX 5-in-1 LED Tape**, or other products in the QolorFLEX family, contact a [City Theatrical Dealer](#) or watch the QolorFLEX Overview video at: <https://youtu.be/inPg3uOmpVo>
