

## The SHoW DMX SHoW Baby™

**The ultimate simplicity of plug and play with the power of SHoW DMX Neo™ Technology**  
City Theatrical has provided the benchmark in wireless DMX systems for entertainment for over a decade with the award winning WDS™ and SHoW DMX® systems, and for 2011 CTI has introduced SHoW DMX Neo, the most sophisticated SHoW DMX system ever.

And now there is a brand new member of the SHoW DMX family, SHoW DMX SHoW Baby™!

SHoW DMX SHoW Baby is incredibly easy to use and incredibly affordable, while still offering the quality and advanced features of SHoW DMX Neo technology, so SHoW DMX SHoW Baby is perfect for the venue or performance where a full featured SHoW DMX system might be too sophisticated or too costly.

The SHoW DMX SHoW Baby represents a breakthrough in plug-and-play wireless DMX and RDM transmission - a single unit that can be used either as a wireless DMX transmitter or receiver. Set-up couldn't be simpler with SHoW DMX SHoW Baby's instant plug-and-play configuration: *For a Transmitter, connect DMX IN, for a Receiver, don't.*

When a DMX cable is plugged to the SHoW DMX SHoW Baby's DMX Input, the SHoW DMX SHoW Baby senses the connection and configures itself as a transmitter. If no cable is connected to the DMX Input, the SHoW Baby configures itself as a receiver.

All you need now to set up a SHoW DMX wireless DMX system is two SHoW DMX SHoW Baby units and two minutes!

The SHoW DMX SHoW Baby features include:

- SHoW DMX Neo® 2.4GHz Frequency Hopping Spread Spectrum (FHSS) Radio
- DMX Synchronized Hopping<sup>1</sup>
- Instant plug-and-play configuration: *For a Transmitter, connect DMX IN, for a Receiver, don't!*
- Preset SHoW ID, so all SHoW DMX SHoW Baby units always work together the first time
- Wirelessly broadcast and receive a full Universe (512 slots) of DMX
- Ultralow 7mS max latency
- Advanced high speed RDM proxy and responder functions
- 75mW ETSI broadcast power<sup>2</sup>
- Included pipe mount bracket for installation with C-Clamps or similar hanging hardware
- Included CL2 power supply with international connector kit
- Included 2dBi Omni-directional Antenna
- Neutrik® 5P XLR Connectors for DMX IN and DMX OUT
- Lost Data Replacement
- Supports reduced DMX slot frames for higher refresh rates
- FCC, IC and CE Certified
- A wide range of accessory antennas available

SHoW DMX Transceivers are covered by U.S. Patent # 7,432,803 and other patents pending.
