

Power Supply, Mean Well, 24W, 12V, Wall Mount | P/N AD-24-12

SPECIFICATIONS:

Physical

Length	76.2 mm	(3.00 in)
Width	38mm	(1.5 in)
Height	76.2 mm	(3 in)
Configuration	Wall	
Mounting Type	Wall Plug	

Electrical

Voltage, Output	12 VDC
Voltage, Input	100-240 VAC
Current, Output	2A
Power, Output	75W
Number of Outputs	1
Operation	PFC
Primary Type	AC-DC

Product Information

Power Supply Type	Non-Commercial
Use Environment	Indoor
IP Rating	IP20
Warranty	One year
Compliance	CE, RoHS

Power Supply, Mean Well, 24W, 12V Wall Mount (P/N AD-24-12) are Mean Well 12V Power Supplies that are used to power 12V LED tape in an indoor setting. This Power Supply's voltage and wattage must be matched in both to the LED tape project you are specifying. These Mean Well 12V Power Supplies, 24W are used to power 12V LED tape in an indoor setting from a wall mounted position.

City Theatrical uses Mean Well and other fine LED Power Supplies to power LED tape. The power supply must be matched in both voltage and wattage to the LED tape project you are specifying, and this is often a difficult and confusing moment for lighting users. Contact us for help in designing and laying out your project. We can talk you through it and help you put your order together.
