

Power Supply, Mean Well, 500W, 12V (P/N RSP-500-12) are Mean Well 12V Power Supplies that are used to power 12V LED tape in an indoor setting. This Power Supply's voltage and wattage must be matched in both to the LED tape project you are specifying. These Mean Well 12V Power Supplies, 500W are used to power 12V LED tape in an indoor setting.

City Theatrical uses Mean Well and other fine LED Power Supplies to power LED tape. The power supply must be matched in both voltage and wattage to the LED tape project you are specifying, and this is often a difficult and confusing moment for lighting users. Contact us for help in designing and laying out your project. We can talk you through it and help you put your order together.

Power Supply, Mean Well, 500W, 12V P/N RSP-500-12

SPECIFICATIONS:

Physical

Length	230 mm	(9.06 in)
Width	127mm	(5.00 in)
Height	40.5 mm	(1.59 in)
Configuration	Enclosed	
Mounting Type	Panel	

Electrical

Voltage, Output	12 VDC	
Voltage, Input	85~264 VDC	
Current, Output	41.7A	
Power, Output	500.4W	
Number of Outputs	1	
Operation	PFC	
Primary Type	AC-DC	

Product Information

Power Supply Type	Commercial	
Use Environment	Indoor	
IP Rating	IP20	
Warranty	One year	
Compliance	CE, RoHS
