

Multiverse® Wireless DMX/RDM

Revolutionary Technology that is Expanding the World of Wireless DMX/RDM.

After years of research, development, and complex engineering, City Theatrical's team of experts has achieved our goal and is proud to offer the Multiverse wireless DMX/RDM system: breakthrough technology that delivers much more DMX data while producing less radio energy.

Key features:

- More DMX Data, Less Radio Energy
- 900MHz/2.4GHz Dual Band Radio Operation
- mDMX, a form of DMX optimized for wireless broadcast
- mRDM, the ability to broadcast RDM information without disrupting the DMX broadcast
- RDM Integration
- RadioScan® Frequency Analyzer to optimize the broadcast plan by selecting ideal SHoW IDs selected for the broadcast
- Smartphone Control using the DMXcat® app
- SHoW Key Security, Forward Error Correction, and Lock PIN
