Fax: 201-549-1161

Diffuser and Extrusion

City Theatrical's extrusion paired with our aluminum diffuser is ideal for use with our QolorFLEX™ LED Tape and numerous LED tape brands. With the low profile extrusion this is great for our lower and medium power LED tapes, such as RGB, RGBA, RGBW, and RGBI.

Features

- Ultra thin aluminum extrusion profile for both recessed and surface mount LED lighting projects
- 12.2mm inner width to accommodate all kinds of 8-10mm LED strip lights
- Oyster white cover provide a well diffused light that is comparable to neon effect, great for decorative and accent lighting for any setting
- Rigidly build aluminum material, heat dissipation, providing great protection for delicate LED strips

Diffuser for low profile extrusion, 2m
