

CITY THEATRICAL

NEW YORK • LONDON

January 12, 2017

For Immediate Release:

City Theatrical at PLASA Focus Glasgow 2017

City Theatrical will be demonstrating their new technology at PLASA Focus on stand A11 in the Scottish Exhibition and Conference Centre, Glasgow, Scotland, January 18-19, 2017.

DMXcat™ is a device used to control, analyze, and test DMX lighting gear. The system combines a small hardware dongle connected by a wireless connection to a suite of Android or iPhone apps. Drawing on a built-in database of lighting fixture personalities, DMXcat controls the fixture through a user interface that emulates a lighting console with encoder wheels. The DMXcat system contains a total of seven apps including DMX Controller, Fixture Controller, RDM Controller, DMX Tester, DIP Switch Calculator, RF Spectrum Analyzer (Android only), and Light Meter (Android only).

Lightwright® 6 is the newest version of John McKernon's industry leading, multi award winning software for managing entertainment lighting paperwork, with loads of useful new features for designers and electricians.

VIA 12 LC 12 + 2 Managed Gigabit Ethernet Switch is a gigabit Ethernet switch designed specifically for lighting, sound, and video signal routing in live entertainment applications. With built-in OpticalCON DUO fiber connectors for LC multimode fiber.

The **VIA5 and VIA5+1 Gigabit Ethernet Switch** is a DIN-mountable, managed switch suitable for use in entertainment lighting, audio, and video distributions systems. Ideal for use in NEMA enclosures and as a Power-over-Ethernet source for connected equipment, such as Pathport® DIN-mountable gateways, Cognito2 lighting consoles, and Choreo architectural controllers.
