

CITY THEATRICAL

NEW YORK • LONDON

August 13, 2020
For Immediate Release

City Theatrical RadioScan Now Shipping, And Training Webinar Registration Available

City Theatrical RadioScan™ Spectrum Analyzer, a 900MHz and 2.4GHz spectrum analyzer that allows users to easily visualize radio energy, is now available through City Theatrical dealers worldwide. RadioScan software program is available for Windows and MacOS as a free download (in the downloads tab) at: <http://www.citytheatrical.com/products/radioscan>

As a training resource for this new technology, City Theatrical's Harrison Hohnholt will be presenting a 30-minute webinar on RadioScan on Thursday, August 20, 2020 at 11AM EDT. Webinar registration is now available on a first come, first serve basis through [WebEx](https://citytheatrical.webex.com/citytheatrical/onstage/g.php?MTID=e081da5c19e47ae98f92eba377cf72763) at: <https://citytheatrical.webex.com/citytheatrical/onstage/g.php?MTID=e081da5c19e47ae98f92eba377cf72763>

A recording of the August 20, 2020 RadioScan webinar will be available after the event on City Theatrical's [YouTube channel](#).

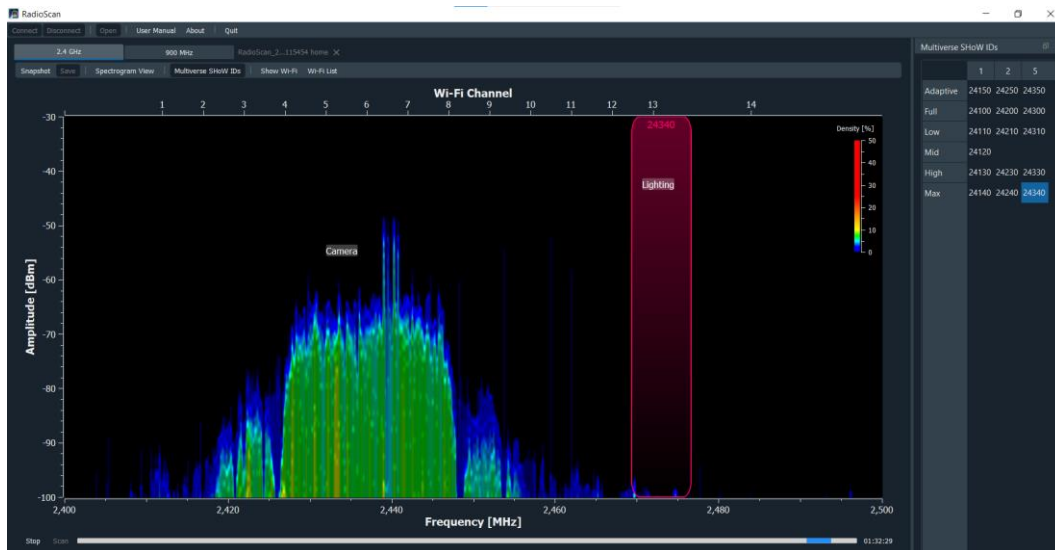

With its hardware dongle and accompanying free software, RadioScan Spectrum Analyzer helps users create wireless DMX broadcast plans that optimize the available spectrum, and help prevent interference with nearby mission critical radio devices. City Theatrical [Multiverse® wireless DMX/RDM](#) product users can use RadioScan guides to create the optimum broadcast plan for a production. The RadioScan software program for PC or Mac guides users in selecting Multiverse SHoW IDs by opening a table that shows the relationship of Multiverse SHoW IDs to the spectrum, and helps choose the optimum area of the band in which to broadcast.

RadioScan is CE certified and compliant with FCC, IC, and RoHS standards. RadioScan is designed and built in the USA by City Theatrical.
