City Theatrical Hosts Webinar on Multiverse Transmitter on May 28

City Theatrical is hosting its fourth webinar on Multiverse® Wireless DMX/RDM technology on Thursday, May 28, 2020 at 11AM EDT. Featuring the powerhouse of the Multiverse system, this 30-minute webinar will go deep into the [Multiverse Transmitter](#) product functionality, which contains four different radios and can broadcast as many as 10 universes from a single transmitter. This webinar will also explain how to set up complex multiple universe broadcasts using this Multiverse wireless DMX technology.

This webinar will be hosted by City Theatrical Sales Manager Harrison Hohnholt. Interested participants can [register to attend the event here](#).

The remaining two webinars in this six-part series will run on consecutive Thursdays starting at 11AM EDT through June 11, 2020, and feature City Theatrical's newest [QolorFLEX 5x2.5A Multiverse Dimmer](#) and [Multiverse Receiver Card](#) products. This series was developed to provide education in wireless DMX to lighting professionals, as well as a digital forum for Q&A on Multiverse wireless DMX technology. **For the full schedule including past recordings and upcoming webinar registration links, visit: citytheatrical.com/multiverse#webinars.**

To view last week's live recording of *Webinar 03: Multiverse Node*, please visit: <https://youtu.be/vO6rxTk9cM>

The 900MHz band, as used in the Multiverse Transmitter models 5910 and 5912, is licensed for use in North America only.
