For Immediate Release

## City Theatrical Expands Pathway Connectivity Product Offering in Europe With Five Products Using SixEye Remote Management Technology

**City Theatrical** has expanded its Pathway Connectivity product offering in Europe with five products now offering SixEye cloud-based remote management. The expansion includes three Pathport™ DMX/RDM Ethernet Gateways – the [Pathport QUATTRO](#), [Pathport OCTO™](#), and [Pathport 4-Port Gateway](#) – as well as [VIA16 PoE Ethernet Switches](#) and [Vignette™ Controllers](#), which can now be managed and monitored securely from anywhere in the world using a PC or smartphone.

Pathway products extend the functionality of DMX control, and have created the next generation of lighting networks with open system products that harness the power and convenience of Ethernet to create spectacular visual experiences for live audiences worldwide. The integration of SixEye cloud-based remote management provides users with secure access to monitor state, uptime, port status and other mission critical functionality online, potentially saving users time and reducing the carbon footprint of this lighting control technology.

The [Pathport QUATTRO](#) is a compact four-port DMX-over-Ethernet management gateway. Power-over-Ethernet operation makes the Pathport QUATTRO ideal for truss-mounted locations, while its silent, fanless operation allows it to be placed immediately next to the lighting console. The encoder knob/LCD screen interface provides front panel access to all common configuration parameters.

The [Pathport OCTO](#) is an eight-port rack-mountable gateway, providing compact installation for any size system. Status LEDs provide instant confirmation of port direction and activity, and the LCD display and encoder knob allow for front panel configuration and reporting of the most commonly used features.

The [Pathport 4-Port Gateway](#), eDIN (8") is a four-port, DIN-mountable Pathport gateway. The Pathport 4-Port Gateway is a compact gateway for encoding, routing and decoding DMX512 data over a standard Ethernet network. In addition to DMX, the Pathport 4-Port Gateway supports RDM discovery and configuration data transport. It is also DIN-rail mountable for fast installation in existing cabinets, or available as part of a complete ETL-listed assembly.

The [VIA16 PoE Ethernet Switch](#) is a 10/100 Ethernet switch with sixteen copper ports and two gigabit mini-GBIC ports for SFP modules. Designed to mount to 35mm DIN rail, this compact switch is engineered specifically for sACN data distribution using Pathport Gateways, [Choreo™ Lighting Controllers](#), [Cognito<sup>2</sup>™ Lighting Control Consoles](#) and [NSB™](#) or [Vignette™](#) architectural wall stations.

The Pathport QUATTRO, now available through City Theatrical in Europe, integrates SixEye cloud-based remote management.

Select Pathway products, including Pathport QUATTRO, VIA16 Ethernet Switch, and Vignette controllers, now support SixEye cloud-based remote management.

#### About City Theatrical, Inc.

City Theatrical invents, manufactures, and customises unique lighting accessories for the entertainment and architectural industries and is the winner of 35+ product and business awards, including the New Jersey Small Manufacturer of the Year in 2015. Founded in 1986, City Theatrical has offices in Carlstadt, New Jersey and London, England. Products include the multi award-winning DMXcat® Multi Function Test Tool, Multiverse® and SHoW DMX® wireless DMX systems, QolorFLEX® brand of professional LED linear lighting, Dimmers and Accessories including QolorFLEX 5-in-1 LED Tape, QolorFLEX NuNeon™, and QolorPIX® Pixel Controlled LED Tape and Tape Controller, QolorPoint® Wireless LED Uplighters and LED event lighting products, professional lighting software including Lightwright® 6, Moving Light Assistant™ and Vectorworks Spotlight, as well as the world's most extensive catalog of entertainment and architectural lighting beam control accessories and hardware. City Theatrical also performs custom manufacturing services and manufactures products on an OEM basis for other lighting manufacturers. Learn more about our professional [experience](#)
