

24V QolorFLEX® LED Demo Kit

This kit contains these strips preloaded from top to bottom:

5050-24-RGBH27006500-60-5-20-1	Five colors in one chip including high CRI white
5050-24-Q-RGBA-60-5-20-1	Four colors in one chip including amber
5050-24-Q-RGBI-60-5-20-1	Four colors in one chip including indigo
3527-24-H27006500-120-5-20-1	High CRI (>95) bi-color 2700k-6500k tunable white in one chip
5050-24-WW-60-5-20-1	2700k white (CRI>70)
2835-24-H3200-120-5-20-1	High CRI (>95) 3200k
2835-24-H6000-120-5-20-1	High CRI (>95) 6000k

Our other most popular strips included in this kit:

5050-24-RGBAD-60-5-20-1	QolorFLEX Quad Chip 4-in-1 RGB Amber Plus Deep Red LED Tape
N914-RGB-5	QolorFLEX NuNeon RGB
N914-WW-10	QolorFLEX NuNeon 2700k (CRI>70) warm white
5050-24-RGBACW-60-5-20-1	Five colors in one chip including amber and cool white
5050-24-Q-RGBWW-60-5-20-1	Four colors in one chip including warm white
5050-24-RGB-60-5-20-1	RGB

**When in doubt for a versatile multi-color tape, choose: 5050-24-RGBH27006500-60-5-20-1
It produces five colors in one chip and produces a very smooth bright output.**

Some designers prefer warm white to amber with RGB when mixing.
Use the “proscenium” accessory with this kit to judge for yourself.

Other tapes in this kit include:

5050-24-NW-60-5-20-1	4100k white (CRI>70)
5050-24-RGBCW-60-5-20-1	RGB plus 6000k white on alternating chips
5050-24-CW-60-5-20-1	6500k white (CRI>70)
5050-24-CW-60-5-67-1	6500k white for outdoor use
5050-24-WW-60-5-67-1	2700k white (CRI>70) for outdoor use
2835-24-UV395-60-5-20-1	395nm UV
N914-NW-10	QolorFLEX NuNeon 4000k
N914-CW-10	QolorFLEX NuNeon 6500k
N914-B-10	QolorFLEX NuNeon Blue
N914-G-10	QolorFLEX NuNeon Green
N914-R-10	QolorFLEX NuNeon Red
N914-A-10	QolorFLEX NuNeon Amber
N914-H27006500	QolorFLEX NuNeon 2 channel High CRI Tunable White

Note: Our LED tape part numbers are descriptive:

LED Type	Voltage	Designator	Color	#LEDs/m	Length (m)	IP	PCB color
5050	24	Q	RGBA	60	5	20	1
5mm x 5mm		Q= Quad chip				20=indoor	1=white
		H= Hi CRI				67=outdoor	2=black

Some other designators are used, such as H27006500 for Hi CRI 2700k to 6500k bi-color.
UV395 = 395nm UV tape
N914 = QolorFLEX NuNeon 9mm x 14mm
