USITT 2008 Show Report

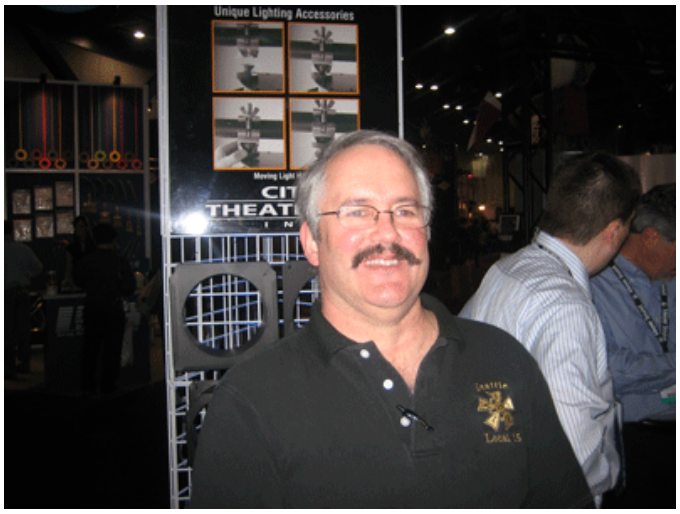
It was great to be in the spring-like weather in Houston for USITT this year. Houston is a fun city with an active downtown, great restaurants, and a ballpark and arena within steps of each other in the center of town.

CTI had loads of visitors to our booth to see our products and to say hello. We launched our new catalog and demonstrated our SHoW DMX system with its built in RDM functions. Gary Fails and Adam Klein spoke at a USITT seminar entitled, **"Wireless DMX Installation and Best Practices,"** and John McKernon was in the booth to demonstrate Lightwright and to meet with users and students.

Here are some of our friends, customers and visitors at the show:

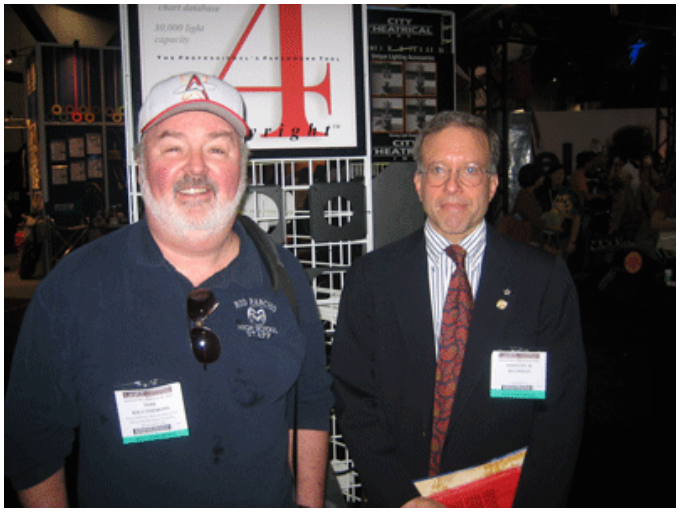
Marty Lazarus, Hope Kass and the Chicago Spotlight crew

Ryan Dillemuth and Nic Philips



Seattle's Alan Crawshaw, inventor of CTI's line of unique hanging hardware.

David Empey of Barbizon Phoenix



Tom Kilcommons and Tim Buchman, both of Local 1, and both good friends of CTI.

Eddie McMahon, Business Agent of Local 1, and Local 1 apprentice Devin Lindow.

Local 1 Vice President Willie Walters

Rob Tooker of PRG New Jersey

Steven Way and Chris Sousa of ALPS

Ed Condit of the Weidner Center for the Arts

Ron Fogel of Ron Fogel & Associates
