"This was a truly beautiful set to light. By using the City Theatrical QolorFLEX NuNeon built into the arches, we were able to create some really magical moments. In fact, there's a few transitions where the only light source is the QolorFLEX NuNeon on the Arches. The footlights (Chauvet PXL bars) were another favorite. Robert wanted a show that used some Elizabethan / Shakespearian conventions, but that also felt like a fresh and modern take on those conventions, and this

component of the design felt like it hit the nail on the head. Super thankful for my whole team and the Public for the support during this process. The waterproofing necessary for the Park and nature itself poses many challenges, and we overcame them all to create a really beautiful show together."
